

Culture and Wellbeing

HSWPG104

Subject Outline

This subject covers a range of different aspects of culture and health. A guest lecturer presents one full day on Indigenous health and aspects of Aboriginal culture that impact on health. The students discuss the parallels between the Aboriginal beliefs and the Buddhist beliefs and how these impact on health. The remaining four days cover aspects of culture including traditional therapies, traditional beliefs in a range of cultures including the Polynesian culture, middle-eastern culture, Asian culture and how migrants feel when they come to Australia. This subject is very interesting and will be of use to people working in multicultural communities or who work closely with people from a range of cultural backgrounds.
