

# Social Policy Health and Wellbeing

 HSWPG201

## Subject Outline

This subject exposes students to the broader aspects of societal health and discusses the political and social frameworks that impact on both individual and community health. The subject discusses ways of promoting health through community based programs, covers the social determinants of health and encourages students to look at ways they can impact on community health through target interventions. The subject includes a lot of practical activities, group-work and personal research. Buddhist philosophy is interwoven into the subject through discussion and practical application of meditation. How Buddhist philosophy impacts on the health of all community members is also discussed.

## Venue/Location

NTI Wollongong, Australia

## When does this subject take place

Lecture dates: 19-23 September 2016 (5 day block 9:00am-5:00pm)
